

Dynamo AI

Complete User Guide

Step-by-step instructions for every feature — from sign-up to advanced research and data analysis tools.

Contents

- 1. Creating Your Account (Sign Up)
- 2. Logging In
- 3. The Main Interface Tour
- 4. Choosing a Mode — Fast / DeepThink / Research / Deep Research
- 5. The Tools Menu (gear button)
- 6. Left Sidebar
- 7. How to Chat
- 8. Research Features
- 9. Study Tools
- 10. Create Tools
- 11. Data Analysis (CSV / Excel + AI Insights)
- 12. AI Detector and Plagiarism Checker
- 13. Your Profile
- 14. Organising Chats and Folders
- 15. Plan Comparison and Pricing

STEP 1

Creating Your Account

Two ways to sign up — Google (fastest, recommended) or email and password.

- 1

Click Sign up
Top-right corner of the Dynamo AI homepage.
- 2

Choose your method
Google Sign Up: one tap, no password needed — recommended for speed. Email: enter your name, email address, and create a password.
- 3

Choose your plan
New accounts start with limited daily access. Pick Basic (₹99/mo), Plus (₹799/mo), or Pro (₹1,799/mo) anytime from your profile to unlock full features.

Tip: Google Sign Up is fastest — no email verification needed. Your Google name and photo import automatically.

STEP 2

Logging In

Return to Dynamo AI at any time and sign back in with the same method you used to sign up.

- 1

Click Log in
Top-right of the homepage.
- 2

Google login (recommended)
Click Continue with Google, select your account — signed in within 2 seconds.
- 3

Email login
Enter your email and password, then click Log in. Use Forgot password if needed.
- 4

Your chats reload automatically
All previous chats, folders, memories, and documents restore instantly.

STEP 3

The Main Interface

Dynamo AI has three zones: the Sidebar (left), Chat Area (centre), and Composer Bar (bottom).

Zone	What it does
Left Sidebar	Search chats, create new chats, quick tools (Export, Smart Actions, AI Detector), chat history, folder tabs, and your account at the bottom.
Suggestion Chips	Tap any chip to instantly start — Make a study guide, Research a topic, Quiz me, Flashcards, Summarise a PDF, Create a deck.
Composer Bar	Type your message, attach files (+ button), choose mode and tools (gear button), use voice (mic), and send (up-arrow button).

STEP 4

Choosing a Mode

Tap the + button (golden border, bottom-left of the composer) to open the Mode selector.

Mode	Who gets it	Best for
Fast Mode (default)	All plans	Everyday questions, quick answers, general chatting. Includes optional live Web Search.
DeepThink Mode	Pro only	Complex analysis, essays, exam deep-dives. Forces step-by-step reasoning.
Research Mode	Plus and Pro	Academic writing with live web search (10 sources), multi-stage analysis, and cited reports.
Deep Research Agent	Pro only	Autonomous agent that browses the web and writes a full literature review (3–8 minutes).

Tip: DeepThink adds a special reasoning process for complex questions. It uses your daily messages and does not cost extra.

Find Research Gaps [PRO ONLY]

Available alongside DeepThink Mode. Ask Dynamo to find research gaps in a topic (or type: Find research gaps in [topic]) and it analyses existing literature to surface underexplored angles, contradictions, and open questions — grounded in live web search.

STEP 5

The Tools Menu

The gear button (next to + in the composer) opens all specialised tools.

Tool	Plan	What it does
Quick study guide	All	Generate a structured, exam-ready study guide for any topic.
Flowchart	All	Describe a process in plain English and get a clean flowchart.
Executive deck	All	8–12 slide polished presentation, downloadable as PPTX.
Data Analysis	Pro only	Upload a CSV or Excel file and get AI-generated charts, statistics, and written insights.

STEP 6

Left Sidebar

Everything to stay organised — chat history, folders, quick tools, and your account.

-  **Search chats**
Type any keyword to instantly find a past conversation.
-  **New Chat**
Start a fresh conversation. Your current chat is auto-saved.
-  **Export / Save**
Download the current chat as a PDF or DOCX file.
-  **Smart Actions**
Summarise or explain the last AI answer with one click.
-  **AI and Plagiarism**
Open the AI detector, plagiarism checker, and humanizer tools.
-  **Chats tab**
All recent chats in chronological order. Click any to open it.
-  **Folders tab**
Create folders (e.g. Physics Notes) and move chats into them.
-  **Your account (bottom)**
Click your name to open Profile — manage plan, quota, memory, and documents.

STEP 7

How to Chat

The main chat area handles questions, file analysis, formatted answers, code, citations, and more.

Typing a message

-  Click the text box and type your question.
-  Press Enter or click the send button.
-  Dynamo responds with formatted markdown.
Headings, bullet points, code blocks, tables, and citations — all rendered beautifully.

Uploading a file

- 1 Click the + button, then Add photos and files.
- 2 Choose a PDF, DOCX, TXT, image, CSV, or Excel file from your device.
- 3 Type your question about it.
e.g. Summarise this paper or Find the key arguments.
- 4 A Remember this chip appears.
Click it to save the file to your Document Library for future sessions.

Web Search

- 1 Click + then toggle Web search ON.
- 2 Ask anything about current events, latest research, prices, or news.
- 3 Dynamo searches Tavily and answers with cited sources.

Tip: Web Search can be combined with any mode — turn it on in Research Mode for even deeper multi-model sourced reports.

STEP 8

Research Features

Four dedicated tools for academic research — from quick reports to autonomous deep dives.

Research Mode **[PLUS]**

Research Mode searches 10+ live web sources, analyses and synthesises the key facts and arguments, and writes a cited final report in your chosen citation format (APA 7th, MLA 9th, Chicago 17th, Harvard, IEEE, Vancouver, ACS, ASA). How to use: click + then select Research Mode, type your topic, and send.

Deep Research Agent [PRO]

An autonomous AI agent that browses the web, evaluates sources, and produces a full literature-review-style report. Takes 3-8 minutes. Watch live progress updates in the chat. Output is a structured, cited report downloadable as DOCX. How to use: click + then Deep Research Agent, type topic, send.

Write a Paper [PLUS]

A multi-model academic writing pipeline: sources are gathered live, key facts are extracted, findings are analysed for themes and gaps, then a full paper is drafted in your chosen citation format. How to use: select Research Mode, choose Write a Paper, pick a citation style, type your topic, and send.

Citation Checker [PLUS]

Paste your references and choose a format (APA, MLA, IEEE, Harvard, etc.). Dynamo checks both your in-text citations and your bibliography — verifying DOIs, fixing formatting errors, converting between styles, and flagging broken references. Find it in the sidebar under Quick Tools then Export / Save.

Research Watcher [PRO]

Define topics to monitor. Every 24 hours Dynamo searches the web and notifies you if genuinely new developments appear. Find it in Quick Tools then Smart Actions then Watch a topic.

STEP 9

Study Tools

Everything a student needs — study guides, quizzes, flashcards, and Radio Mode.

Tool	How to access	What it does
Study Guide	Tools menu then Quick study guide or type: Make a study guide on [topic]	Structured, exam-ready notes for any topic or pasted text.
Quiz Me	Tools menu then Quiz me or type: Quiz me on [topic]	5 multiple-choice questions. Answers revealed after you respond.
Flashcards	Tap the Flashcards chip on the homepage	Flip-card flashcards auto-generated from any topic or uploaded notes.
Radio Mode	Tools menu then Radio mode	AI reads its answers aloud. Responses auto-play as natural speech.

STEP 10

Create Tools

Generate images, videos, mindmaps, flowcharts, and presentation decks from a text description.

Tool	Plan	Access and description
Image Generation	Pro only	Tools then Generate Image or type: generate an image of... Dynamo creates it instantly.
Video Generation	Pro only	Tools then Generate Video Short AI-animated clips from text descriptions.
Mindmap	All	Tools then Mindmap or type: create a mindmap on... Interactive and exportable.
Flowchart	All	Tools then Flowchart or type: make a flowchart for... Clean downloadable diagram.
Executive Deck	All	Tools then Executive deck or tap Create a deck chip. 8-12 slides, downloadable as PPTX.
Summarise a PDF	All	Tap the Summarise a PDF chip, then upload your file. Get a structured key-points summary.

STEP 11

Data Analysis

Upload a spreadsheet and let Dynamo AI act as your personal data analyst — no formulas or coding needed.

Data Analysis [PRO ONLY]

Available exclusively on the Pro plan. Upload a CSV or Excel (.xlsx/.xls) file and Dynamo automatically profiles your data, detects numeric columns, and generates a full written analysis — like having a quantitative analyst on call.

- 1** Open the Tools menu (gear button)
Select Data Analysis, or click the Analyse Data option in the composer.
- 2** Upload your file
CSV or Excel. Dynamo reads the columns, rows, and data types automatically.
- 3** Ask your question
e.g. "What trends do you see in monthly revenue?" or leave blank for a full automatic report.
- 4** Get insights, stats, and a chart
Dynamo returns a professional written analysis plus an auto-generated chart of your key numeric trends, downloadable alongside a cleaned CSV.

Tip: Great for survey results, sales reports, attendance sheets, lab data, or any spreadsheet — ask follow-up questions in the same chat to dig deeper.

STEP 12

AI Detector and Plagiarism Checker

In-house AI detection with no third-party API cost. Pro only. Access: Sidebar then AI and Plagiarism.

AI Text Detector **[PRO ONLY]**

Paste any text and get a 0–100 AI score with a label (Human / Uncertain / AI-Generated) and 3–5 specific signals explaining the decision. Also shows a sentence-by-sentence heatmap.

Humanizer **[PRO ONLY]**

AI-generated text is rewritten to preserve meaning and academic register while adding natural hedging, varied sentences, and personal voice — so it passes AI detection.

Plagiarism Checker **[PRO ONLY]**

Searches the web and 200M+ academic papers (Semantic Scholar). Scores true similarity 0–100%, separating common terminology from actually copied content, with source links.

Self-Plagiarism Check **[PRO ONLY]**

Submit two documents (current paper and prior work) to identify overlapping passages with a practical recommendation on what to rephrase.

STEP 13

Your Profile

Click your name or avatar at the bottom of the left sidebar to open the Profile modal.

-  **Usage and Plan**
See daily messages used vs limit, image count, and video count. Shows your current plan (Basic / Plus / Pro) and an Upgrade button.
-  **Edit name and password**
Update your display name or change your login password at any time.
-  **AI Memory (Plus)**
View and delete the personal facts Dynamo has learned from past conversations. Memories are auto-injected into every new session.
-  **Document Library (Plus)**
Upload PDFs, DOCX or TXT files permanently. Dynamo summarises them and references them in every future chat — no re-uploading needed.

**Upgrade Plan**

Choose Basic (₹99/mo, 10 msg/day), Plus (₹799/mo, 100 msg/day, 7-day free trial), or Pro (₹1,799/mo, 300 msg/day, 14-day free trial). Pay via Razorpay — cards, UPI, and wallets supported.

**Log out**

Securely log out from the bottom of the profile modal.

STEP 14

Organising Chats and Folders

Keep your research organised by grouping chats into named folders.

Creating a folder

1

Click the Folders tab in the sidebar.

2

Click New Folder button.

3

Type a name such as Thesis 2026 or Physics Notes.

4

Press Enter to save.

Moving a chat into a folder

1

In the Chats tab, hover over a chat.

2

Click the ... menu that appears.

3

Select Move to folder and choose your folder.

Tip: The Chats tab always shows ALL your chats (including those inside folders) as a flat list — great for finding recent conversations quickly.

STEP 15

Plan Comparison and Pricing

Basic ₹99/mo · Plus ₹799/mo (7-day free trial) · Pro ₹1,799/mo (14-day free trial).

Feature	Basic ₹99/mo	Plus ₹799/mo	Pro ₹1,799/mo
Daily chat messages	10	100	300
Voice input	Basic	Voice + TTS	Voice + TTS
File / PDF uploads	--	Yes (15/mo)	Unlimited
AI Memory	--	Yes	Yes
Document Library	--	Yes	Yes
Research Mode	--	Yes	Yes
Write a Paper	--	Yes	Yes
Citation Checker	--	Yes	Yes
DeepThink Mode	--	--	Yes
Find Research Gaps	--	--	Yes
Deep Research Agent	--	--	Yes
AI Detector / Plagiarism	--	--	Yes
Data Analysis (CSV / Excel)	--	--	Yes
Research Watcher	--	--	Yes
Image generation	--	--	25 per month
Video generation	--	--	15 per month
Quota reset	Daily midnight UTC	Daily midnight UTC	Daily midnight UTC
